

I do not want to receive phone calls from businesses or sales people; I want the right to call them if and when I want to contact them. They should "not" have the right to disturb me whenever they want. Their call can also make me miss an important call that I really want to receive. So I would like you to leave Indiana's no call list alone and enforce it as it is. So please "stop" the actions of The Consumer Bankers Association (CBA) to change any no call list.  
Thank you Dennis Long
